## On-Time Mill Services With the Triosim Difference

At Triosim, we understand the unique requirements of shutdown services. Tight schedules, coordination with contractors, working safely, and changing job scope are only some of the issues that require an exceptional level of expertise.

Triosim technicians are professionals who bring decades of Pulp & Paper experience to every project. We know how to move in a shutdown.

### Budgets are Tight

Triosim maintains its commitment to competitive pricing. We'll work with you to find ways to stretch maintenance dollars for a more effective shutdown.

### Smart Parts

Triosim Parts are direct replacements, guaranteed for fit and quality. Whether your equipment was supplied by us, or a competitor, your part will be engineered for perfect fit and manufactured to standards that meet or exceed your OEM part.

Triosim ships when promised and we package and label your shipments to your specifications to assure efficient staging for your shutdown.

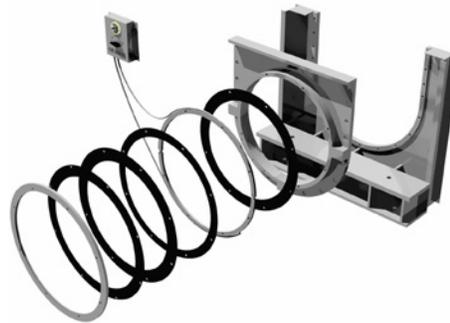

### Rebuild Options

Trunnions, take-off rolls, discharge valves, and carbon bushing assemblies are just a few of the components that Triosim has rebuilt for its customers. Badly worn equipment may have many years of useful life after expert rebuilding services.

Triosim's field capabilities enable us to rebuild many components at your site. Our in-house machining and fabrication facilities, as well as proximity to a major air terminal, positions us uniquely to respond to quick turn-around requirements.

### Problem Solvers

The Premium Oil Seal, DF-II Seal and the Triosim Journal Seal are saving our customers time and money, while reducing wear and tear on equipment. Call on us to learn how to put these seals to work for your mill.

### Designed, Engineered & Manufactured Under Triosim Supervision

It is this distinct advantage that allows us to control quality at every step of your project, from the smallest part to the largest component. And since it all happens in one place, we are able to respond quickly when schedules are tight.

- Inspections
- Installation
- Maintenance & repairs
- Rebuild services
- Spare parts & components
- Outstanding record for safety
- Experienced professional technicians
- Triosim parts are guaranteed
- Competitive pricing
